

iPC Health Welcomes KIMSHEALTH to Its Growing Network of Hospitals

Bangalore, 31st August 2020: iPC Health recently welcomed KIMSHEALTH to their rapidly growing network of hospitals getting closer to their 100-hospital milestone. This is a remarkably significant partnership for iPC Health as multiples branches of the hospital from India and the GCC countries such as BAHRAIN, OMAN, UAE and QATAR have signed up with the platform, which is set to onboard over 5000 users.

In the current scenario it is extremely imperative that healthcare professionals are trained and updated with the latest information regarding COVID-19. iPC Health launched a COVID-19 Resource Centre on the website and platform, at the start of the pandemic, to help the healthcare professionals with free online training resources that can be accessed anytime, anywhere. KIMSHEALTH is directing their focus on improving staff skills through digitization and keeping that in mind have partnered with iPC Health, a market leader in online training for healthcare professionals. The hospital chain is the first medical facility that will seamlessly integrate the iPC Health platform with their Human Resources Management System, thereby, making it quick, easy and smooth for their staff to access the training content and resources that the iPC Health platform provides.

Speaking about this partnership, Sameer Shariff, Founder and CEO, Impelsys said, “We are extremely excited to have KIMSHEALTH in our network of hospitals as it is also the first hospital from the GCC countries to have signed up with us. Our vision is to spread knowledge through technology and it is our objective to ensure that the staff has access to the best content and training resources.”

Group CEO of KIMSHEALTH, Dr. Sheriff M Sahadulla shared, “Integrating iPC Health with our HR Management Systems will help streamline our training process. It will allow our staff quick and on-the-go access to the training content hosted on the platform. This partnership will help us strengthen our training program and aid us in our vision to be a model of excellence for the provision of healthcare and wellness services to one and all.”

About iPC Health

iPC Health is a comprehensive learning, training and skill development platform for healthcare professionals. It is designed to be a mobile-first solution enabling round the clock learning. The platform offers an extensive list of modules for compliance, employee induction, continuing education and soft skills training. It is an end-to-end learning management platform that will help the hospitals in streamlining their compliance training, recruitment, assessment, and on boarding cycles.
